LeetCode: <https://leetcode.com/problemset> GitHub: <https://github.com/Aya7m>

Portfolio: <https://portofolio-gr5r.vercel.app>

Professional Summary

Computer Science graduate from Minia University with a Very Good grade and a Full Stack Web Development Diploma from Route Academy. Skilled in React.js, Next.js, Redux Toolkit Zustand Context API, Express.js, NestJS, MongoDB, and PostgreSQL. Experienced in building complete web applications including authentication systems, dashboards, role-based access control, REST APIs, and database design, Strong problem-solving skills with the ability to analyze requirements, debug applications, and build efficient software solutions..

Technical Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS Redux Toolkit Zustand Context API

Backend: Node.js, Express.js, NestJS, REST APIs

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, VS Code

Projects

School Management System

React.js | Express.js | MongoDB

- Developed a complete school management platform for administrators, teachers, and students.
- Implemented authentication and role-based authorization.
- Built attendance, class, teacher, and student management modules.
- Designed REST APIs and MongoDB database architecture.

Project Resources:

- Live Demo: <https://school-management-frontend-psi-sepia.vercel.app/login>
- Frontend Repository: <https://github.com/Aya7m/school>
- Backend Repository: <https://github.com/Aya7m/backend-school-management>

Personalized Nutrition Platform

React.js | Express.js | MongoDB

- Developed a nutrition platform that calculates BMI and generates personalized meal plans.

- Built user profiles, authentication, and progress tracking features.
- Created recommendation logic based on user goals and health data.

Project Resources:

- Live Demo: <https://nutritin-frontend.vercel.app>
- Frontend Repository: <https://github.com/Aya7m/nutritin-frontend>
- Backend Repository: <https://github.com/Aya7m/nutrition-backend>

English Learning Platform

React.js | Express.js | MongoDB

- Built a multi-level English learning platform.
- Implemented quizzes, authentication, and progress tracking.
- Designed responsive and user-friendly interfaces.

Project Resources:

- Live Demo: <https://english-learn-frontend.vercel.app>
- Frontend Repository: <https://github.com/Aya7m/englishLearn-frontend>
- Backend Repository: <https://github.com/Aya7m/englishLearn-backend>

PROBLEM SOLVING

- Strong problem-solving and analytical thinking skills.
- Experience solving algorithmic and data structure problems on LeetCode.
- Solid understanding of arrays, strings, linked lists, stacks, queues, recursion, and searching/sorting algorithms.
- Ability to analyze requirements, debug applications, and implement efficient solutions.

Education

Bachelor of Computer Science – Minia University

Grade: Very Good

Graduation Year: 2018

Training & Certifications

Full Stack Web Development Diploma – Route Academy (9 Months)

Frontend Development, Backend Development, REST APIs, MongoDB, PostgreSQL, Git & GitHub.

Languages

Arabic: Native

English: Good
